

Sirs,
Reject the NAB's petition 04-160 limiting XM radio and my ability to listen to what I want to pay for. Here in the Seattle/Tacoma area, the media networks have devolved the radio channels to the same mindless drivel. XM has taken me from CDs back to broadcast entertainment. Whether XM carries local traffic and weather is not material to my listening to the local stations - I don't and won't. Please respect my rights and reject the NAB's power play.

Thank you
